Andrea Monti (left), Tecnair LV's sales & marketing director, signs the deal with Leminar Global's COO Pramodh Idicheria

ITALY/DUBAI: Italian close control air conditioning manufacturer Tecnair LV has appointed Leminar Global to distribute its products in the UAE, Oman, Kuwait and Qatar.

The agreement will expand Leminar's air conditioning equipment portfolio, which already includes such names as Rheem, Mueller, Armacell and Emerson.

Tecnair, a member of the Lu-ve group, will be able to tap into the region's booming digital economy with its close control units for data centres and other applications requiring sensitive control.

"We have always hand-picked our partners keeping in mind the requirements of the market, the quality and green credentials of its product line and compatibility based on corporate values and operational ethics," said Leminar Global's COO Pramodh Idicheria. "We feel that Leminar is truly evolving into a global brand," he added.
